*Polish Diplomat Put Under Arrest,  
Accused of Spying for U.S., France*

Reuter

WARSAW, June 4—The chief military prosecutor in Warsaw arrested a Polish diplomat, on charges of spying for the United States and France, after his return from abroad yesterday, the official news agency PAP reported today.

PAP said the diplomat, Jozef Grochowski, worked in the Polish commercial counselor's office in Tokyo and refused to return to Poland in September.

It gave no further details and it was not immediately known whether the diplomat returned to his homeland from Japan or another country.

The Polish code provides penalties for espionage ranging from five years in jail to death.

The Supreme Military Court in December sentenced to death in absentia Poland's former ambassador to Tokyo, Zdzislaw Rurarz, who defected from Japan to the United States after the imposition of martial law in Poland. He was accused of treason.
